

Instructions for Completing NF 1676 Form (Last Update: December 20, 2001)

1. **Section I:** Check whether the document is **modified or original**; enter the **Title, Author(s), RTOP# (civil servants) or Contract# (contractors)**; check the **type(s) of publication**; enter the **document details**. Contractors list your contracting company as the **Performing Organization**. Detailed instructions: List the **Author(s) in the order listed in the document**, in the format **Lastname, Firstname (employer)**. The Ames employee submitting the 1676 form should **give your full phone number instead of your employer**. Give the **document details** (where published/presented, as space permits) in the box next to the black triangle/arrow. If Web publication is a possibility, also check the "URL" box, and give the URL or website in the document details box.
2. **Section II: Check "Unclassified"**. Note: If your document is *not* unclassified, check the appropriate box; your document must have limited distribution and be given a thorough export control review.
3. **Section III: Check "Publicly Available"**, and **complete the ARC1676A** form. Note: If your document does *not* qualify to be publicly available, do not check this box; your document must have limited distribution and be given a thorough export control review.
4. **Print the NF1676 form.**
5. **Section VI: Sign and date** the form. Check the **"Does NOT"** box. Note: If you did not check both Unclassified and Publicly Available on Page 1, check the "DOES" box, meaning that document distribution is limited and/or export controlled.
6. **Attach a copy of your document** to the form. [To conserve paper, please use duplex printing. Talk slides should be printed 2 or 4 to a page whenever possible.]
7. **Route the "1676 package" to get all indicated approvals.** Wait for final approval before releasing your document.

Please report form changes to me (Bryan Biegel, bbiegel@mail.arc.nasa.gov), so that I can update the online form at:
